tolino[®] shine 3

- smartLight – automatic color temperature adjustment depending on the time of day
- 6-inch 300 ppi E Ink Carta HD display with pin-sharp typeface
- High-quality touchscreen display – lightning-quick and precision response
- For all your favorite books: space to store up to 6,000 eBooks
- Weeks and weeks of battery life for long-lasting reading pleasure

More than just good looks

The new design of the tofino shine 3 combines aesthetics with functionality. Despite being smaller and even more compact, the eReader still provides the same sized reading surface as its predecessor with a 6-inch display. Better handling is guaranteed thanks to both the new format and the structure of the new non-slip surface on the back. The latter will give you a good grip on the eBook Reader, making long reading sessions effortless.

Optimal reading light at all times

The tofino shine 3 lets every story appear in a favorable light – day and night. The tofino smartLight provides optimal reading light on the tofino eBook Reader at every time of day or night. The color temperature in the integrated light automatically adjusts to suit the time of day and changes in harmony with the natural daylight, from cool white light in the morning to warm white light in the evening. This makes it perfect for your natural rhythm – especially if you like to read before falling asleep. Of course, you can also adjust the smartLight to your individual preferences.

If you are reading in bright daylight, you can also turn the lighting off completely and extend your eReader's battery life even further. The high-contrast and pin-sharp display reads like the printed page and is easy on the eyes.

Download eBooks directly via WLAN

Looking to download the latest bestsellers or eBook bargains on your eReader in a matter of seconds? Simply connect your tofino shine 3 to WLAN and browse through the latest page-turners in the integrated eBook shop. Free use of Deutsche Telekom HotSpots in Germany (after logging in with a bookseller account) also provides you with quick access to the internet.

High-performing battery for weeks of reading pleasure

Even heavy readers will be impressed by its stamina: The tofino shine 3 consumes little power during reading, guaranteeing weeks of reading pleasure without any need for charging cables. This is not just practical in everyday life, but also makes the tofino shine 3 eBook Reader an ideal travel companion.

Extra-large memory for your eBooks

Saving space is so yesterday: From now on, your digital library will be able to continue to grow in leaps and bounds. With a generous 8 GB of memory, around 6 GB of it for your books, you can save up to 6,000 eBooks locally on your tofino shine 3. This means that you will always have your favorite books in your pocket, with the right book on hand at all times when you're on the go.

Limitless freedom – buy eBooks wherever you want

tolino believes in openness and lets you choose for yourself which booksellers you want to buy your eBooks from. This allows you to enjoy access to the full range of offerings from all tofino eBook sellers. You can comfortably load existing EPUB and PDF eBooks onto your tofino shine 3 and read them there – tofino makes this especially straightforward with its tofino cloud synchronization and the tofino library link.

tolino cloud: easily store and synchronize your eBooks

With your tofino shine 3 you receive free access to the tofino cloud, the secure online storage for your eBooks. Here you can find the eBooks you have purchased as well as eBooks that you have uploaded to the tofino cloud yourself. You can also access your saved eBooks anytime, even from on the go. You can synchronize your library with up to five devices.
